### *An Overview of Cozumel*

Cozumel is 33 miles long and 11 miles wide. It is the largest island in the Republic of Mexico. Twelve miles to the west is the mainland of Mexico, separated by a channel that is 3,000 feet deep. The Mayans have lived on Cozumel since 300 AD, and are most noted for their complex systems of mathematics, astrology and prolific city building. Cozumel was a trading center and was in contact with regions as far north as Veracruz and as far south as Honduras.

Shop for traditional handicrafts and duty free jewelry and dine in seaside restaurants seasoned with friendly local Cozumel residents. This, with lasting impressions and splashed with romantic cocktails, will leave you wanting more. This island is a refreshing getaway from the metropolitan cities. Cozumel is considered the "crown jewel" of the Mexican-Caribbean. Powdery white sands, crystal clear waters, protected environments and snorkeling or scuba diving among schools of fish is a playground away from industrial society. Cozumel is a true Mexican paradise, and receives more cruise ship guests annually than St. Thomas.

Cozumel is part of the Central Standard time zone (one hour earlier than Eastern). The language spoken there is Spanish, but almost everyone speaks some English. San Miguel is the only town on the island where cruise ships visit.

**Docking/Anchorage:** The ship can dock in one of three pier locations: Punta Langosta (downtown), International Pier or Puerta Maya Pier.

**RESTRICTIONS ON U.S. CURRENCY TRANSACTIONS IN MEXICO**

In September of 2010, the Mexican government enacted a law limiting the amount of U.S. dollars a Mexican business or individual may deposit into their bank account. Because of this limitation, some of the recommended stores in port may restrict the amount of U.S. dollars they will accept in settlement of your purchases. Please remember to take your credit card into port so that you may be able to take advantage of all the bargains these stores have to offer.
