

AN OVERVIEW OF KUSADASI

Kusadasi, which means 'bird island,' is set in a gulf in the Aegean region of Turkey and known for its turquoise sparkling water, broad sandy beaches, bright sun and large marina. A glorious ancient city stands beside it, Ephesus with hundreds of thousands of visitors each year. Numerous discos, bars, cafes, pubs and hotels line its shores and hundreds of restaurants serves food from all around the world with of course, Turkish Cuisine.

Ephesus is said to be the best-preserved ancient city in the Eastern Mediterranean and the Virgin Mary is believed to have visited there between 37 and 45 A.D. The two-story library once contained thousands of scrolls, and the Terrace Houses display intricate mosaics and colorful frescoes. The fabulous Temple of Cybele at Artemis – which Alexander the Great visited during its construction in 334 B.C. – was one of the seven wonders of the ancient world.

Kusadasi's population of less than 65,000 people climbs to over half a million during peak months of its major industry, which is tourism. With a history dating back to 3,000 BC, and area highlights that include the magnificent ancient city of Ephesus, it isn't any wonder why so many people come to visit this Aegean coastal town.
