An Overview of Grenada

Forming the southern tip of a string of Caribbean islands, Grenada is known as the 'Spice Isle' and a major source of cinnamon, cocoa, ginger and the world's largest exporter of nutmeg. It encompasses three main islands: Grenada (the largest), Carriacou and Petite Martinique (the smallest of the Grenadines). With tempting blue seas and an enticing tropical climate, Grenada's laidback lifestyle and unique nature make it a popular vacation destination.

If water sports are your preference, you will not be disappointed by the crystal clear seas and classic, pristine sandy shores of Grenada. The country is renowned for its diving and snorkeling, and contains many famous dive sites including reefs and wrecks. Trips can be easily arranged and transfers off the island of Carriacou are provided. Chartering a yacht to explore the smaller islands of the Grenadines for a few days is another great option.

Ecotourism is popular and the chance to watch 600 leatherback turtles migrate to Levera Beach to lay their eggs is not to be missed April through July. To preserve conservation of the area, visits are only allowed through a licensed tour operator, but all providers guarantee an up-close encounter.

Docking/Anchorage: The Port of St. George's in Grenada can accommodate large cruise ships berthed at the Melville Street Cruise Terminal.

Port Adventures:

Check your ticket for the correct meeting time and location for your tour. Your Port Adventures Team will direct you to transportation.

In Case of Emergency:
