Disney FANTASY Fun Facts

While the cute baby elephant, Dumbo serves as a fantastic stern character, in real life he would have to gather 24,266 other adult male African elephants to match the weight of the Disney Fantasy.

A "light point" is shipbuilders' lingo for anything that's a light. There are approximately 80,000 light points on the Disney Fantasy – "double the normal number for a ship this size," according to Meyer Werft, the shipyard in Germany where the Disney Fantasy was built. The large number is the result of Disney's flair for theatrical experiences – accomplished primarily with LEDs and other "environmentally friendly" lighting.

Looking upward in the ship's Lobby Atrium brings Guest's eye-to-crystal with a glowing piece of "Art Nouveau-inspired jewelry" – a cascading chandelier flowing downward from a massive stained-glass flourish on the ceiling in peacock hues of greens and blues. The chandelier itself is more than 10 feet in diameter, a one-of-a-kind work of art evoking a peacock in stained glass and more than 60,000 clear Swarovski crystal beads.

Important information regarding disembarkation procedures for your journey home will be covered in this debarkation briefing. The broadcast will be shown continuously on channel 5 of your stateroom television for your convenience.
