TRAVEL SAFETY TIPS

As in any tourist destination, you will want to take some basic precautions to make the most of your time ashore. Be aware of your surroundings, especially in crowded areas and avoid wandering from the main shopping and tourist areas into unfamiliar territory. If venturing out independently, have a plan, use only licensed taxi operators. Leave your valuables in your stateroom safe and avoid carrying large amounts of cash. Exercise caution when using ATMs. Cameras and handbags should be carried close to your body or concealed out of sight. People who carry handbags or backpacks are particularly vulnerable to purse snatchers on scooters. Guests should take their passport with them when ashore. If a passport check is required by local authorities, photo copies are no longer a valid form of identification. In general, use the same level of precaution you would use in any tourist destination. Please remember that while in a foreign country, you are subject to its laws.
