Take Ashore

- ✓ This Map
- ✓ Passport for adults and children & Key to the World Card
- ✓ Cash & Credit Cards

Travel Safety Tips

As in any tourist destination, you will want to take some basic precautions to make the most of your time ashore.

- Be aware of your surroundings, especially in crowded areas.
 - Avoid wandering from the main shopping and tourist areas into unfamiliar territory. If venturing out independently, have a plan, use only licensed taxi operators.
 - Leave your valuables in your stateroom safe and avoid carrying large amounts of cash. Exercise caution when using ATMs.
 - Cameras and handbags should be carried close to your body or concealed out of sight. People who carry handbags or backpacks are particularly vulnerable to purse snatchers on scooters.
 - When going ashore, each adult and child is required to carry a passport or other government-issued photo ID. – Note: Some ports may require Guests to carry passports ashore.
 - In general, use the same level of precaution you would use in any tourist destination.
- Please remember that while in a foreign country, you are subject to its laws.

Barcelona

BARCELONA OVERVIEW

Barcelona is the second largest Spanish city in population and the principal industrial and commercial center of the country. The chief manufactures are textiles, precision instruments, machinery, railroad equipment, paper, glass, and plastics. Barcelona is a major Mediterranean port and the financial and publishing center of Spain.

Barcelona Province, the most populous and industrialized of the Spanish provinces, is mountainous, with fertile plains and a low, sandy coast. Agricultural products include cork, olives, grains, vegetables, grapes, almonds, oranges, and peaches. Cement and textiles are the major manufactures, and lignite and potash are mined.

The oldest section of the city of Barcelona, formerly enclosed by walls, was built on the harbor and is traversed by the Rambla, a paved thoroughfare extending from the harbor to the Plaza de Catalunya, the focal point of the city. The streets of the old section are narrow and crooked; in the newer sections they are wide and straight, and the buildings are modern. The Picasso Museum located at Montcada 15-19 is particularly strong on Picasso's early work. Displays include childhood sketches, pictures from the beautiful Rose and Blue periods, and the famous 1950s Cubist variations on Velázquez's *Las Meninas* (Ladies-in-Waiting). Since then it has been continuously inhabited, and, as headquarters first of the Roman Empire and then of the Roman Catholic Church, it has had an immense impact on the world.
