PANAMA CANAL INFORMATION

Stretching approximately 48 miles long, the Panama Canal is an international water passage between North and South America that connects the Atlantic to the Pacific. The canal passes through the Isthmus of Panama, allowing sea voyagers to save precious travel time and resources. A masterful feat of engineering, this legendary waterway is revered as one of the 7 wonders of the modern world. However, the "Path between the Seas" is not a natural wonder, it's a man-made triumph involving a series of lifts and lock gates made to raise ships and transport them through the waterway.

As you travel through the Panama Canal, have your camera at the ready! Bordered by lush, tropical rainforests, the canal is a spectacular sight full of photographic potential.

For those who can't make it out on deck, Bridge camera and Panama Canal narration is available on Channel 3.

FACTS ABOUT THE ORIGINAL PANAMA CANAL

- The official opening of the Panama Canal was August 15, 1914.
- The 50-mile long passage created an important shortcut for ships traveling between New York and California trimming nearly 8,000 miles from their voyage.
- Between 12,000 & 15,000 ships cross the Panama Canal every year.
- Every ship that transits the canal must pay a toll based on its size and cargo volume. Tolls for large ships can be as high as \$450,000.
- The lowest toll ever paid was \$0.36 cents by Richard Haliburton who swam the canal.
- A system of locks raises each ship 85 feet above sea level.

FACTS ABOUT THE NEW PANAMA CANAL

- The Panama Canal expansion started in 2007 and was completed in June 2016.
- The estimated cost of building the new locks was \$5.25 billion dollars.
- The allowed length of ships increased from 965 feet to 1200 feet. The allowed width of ships increased from 106 feet to 160 feet.
- The new lock chambers are 180 feet wide, 1,400 feet long and 60 feet deep.
- The new lock chambers hold 65% more water than the original locks and use 7% less water per transit.
- The total annual tonnage traveling through the Panama Canal will increase from 275 million tons to 600 million tons.
- The Disney Wonder was the first passenger ship to navigate entirely through the new locks - Aqua Clara and Cocoli.
