

Important Information

Some images and content on this website may not represent the latest operational guidelines or health and safety measures that will be in place during future sailings. Health and safety measures, ports of call and offerings may change at any time without notice. Certain onboard venues, experiences and other offerings will be modified or unavailable, will have limited capacity and will be subject to limited availability, advance reservations or even closure.

COVID-19 Warning

An inherent risk of exposure to COVID-19 exists in any public place where people are present. View important details.

# Requirements for Cruise Passengers Visiting Europe

Last Updated: April 13, 2022

Guests on sailings departing from and arriving to homeports in Europe—including Barcelona, Spain; Civitavecchia, Italy; Dover, England; and Copenhagen, Denmark—are required to adhere to the following COVID-19 vaccination and testing protocols.

COVID-19 Vaccination:

Disney Cruise Line requires all vaccine-eligible Guests to be fully vaccinated against COVID-19 at the time of sailing, as defined by the US Centers for Disease Control and Prevention (CDC) and World Health Organization (WHO). This is a requirement for all Guests ages 5 and older.

In consideration of guidance from the CDC and WHO, Disney Cruise Line accepts the following vaccine types: Pfizer, Moderna, Johnson & Johnson, AstraZeneca, Covishield, Novavax, Sinopharm BBIBP-CorV (VeroCell), Sinovac-CoronaVac and Covavaxin (Bharat Biotech).

The CDC defines fully vaccinated as 14 days after receiving:

- a single-dose of an accepted 1-dose vaccine
the second dose of an accepted 2-dose vaccine
the full series of an active (not placebo) COVID-19 vaccine in the U.S.-based AstraZeneca or Novavax COVID-19 vaccine trials
the second dose of any "mix-and-match" combination of accepted COVID-19 vaccines (administered at least 17 days apart)

See below for additional information about country-specific government entry requirements.

Pre-Trip COVID-19 Testing:

Guests who are not vaccine-eligible, because of age, must provide proof of a negative COVID-19 test result (paid for by the Guest) taken between 3 days and 24 hours before their sail date. Guests 4 years of age and under must complete these testing requirements. The test should be a COVID-19 nucleic acid amplification test (NAAT), a rapid PCR test or a lab-based PCR test. Rapid antigen tests are not accepted.

## Project Screen Website by Prenetics

In order to sail, all Guests must submit their proof of vaccination or negative COVID-19 PCR test result to the Project Screen by Prenetics website prior to arrival at the terminal. A parent or legal guardian will need to use their own account to provide this information on behalf of minors. Guests will be able to register at the Project Screen website no sooner than two weeks prior to their sailing.

Guests Recently Recovered from COVID-19

In some cases, people who have recently recovered from COVID-19 may still test positive for the SARS-CoV-2 virus. If Guests have tested positive for SARS-CoV-2 within 11 to 90 days of their sail date, they may qualify to be considered as "recently recovered." With the appropriate documentation and subsequent approval, Guests considered recently recovered are not required to participate in COVID-19 testing during the Pre-Sail, Embarkation or Debarkation phases of their voyage. To be considered recently recovered you will need to provide:

- A copy of your previous positive COVID-19 test result which is greater than 11 days and less than 90 days from your expected sail date. The test must be an antigen, NAAT, rapid PCR or lab-based PCR. The test result must also include your date of birth.
A signed letter (on official letterhead that shows the name, address and phone number of a licensed healthcare provider or public health official) stating that you have recovered from COVID-19 in the last 90 days and are clear for travel.
Proof of vaccination.

Bring this documentation with you to the port.

Embarkation COVID-19 Testing:

In consideration of guidance from public health authorities and other medical experts, all Guests (regardless of age and vaccination status) will be required to take a COVID-19 test at the terminal before boarding (paid for by Disney Cruise Line and administered by Prenetics). Guests with positive COVID-19 test results will undergo a second confirmatory test. Guests with confirmed positive COVID-19 test results—as well as those sharing the same stateroom and their close contacts—will be denied boarding. Prenetics is Disney Cruise Line's third-party partner for COVID-19 testing and vaccination verification in Europe.

Country-Specific Government Entry Requirements

Certain European countries may have COVID-19 vaccination, testing and documentation requirements for entry that are independent of and in addition to Disney Cruise Line's health and safety protocols.

For example, some countries may require a COVID-19 booster dose to enter the destination or port of call if the Guest's final COVID-19 vaccine was administered more than 270 days before arrival. In these instances, Guests should consider completing a booster dose at least 14 days before arrival into the country.

Some countries may require a valid EU Digital COVID-19 Certificate or additional registration and documentation for entry into their country.

Guests are responsible for checking and meeting all requirements or restrictions that may be in place for travel to any homeport or port of call that is part of their cruise itinerary. Guests who do not meet the country-specific government entry requirements may be unable to reach their point of embarkation to board their cruise, or unable to debark the ship at certain ports of call or their final destination.

Guests can visit the websites below to learn more about the government entry requirements for the following European homeports:

- Spain
Italy
Denmark
England

Country-specific government entry requirements may change at any time, without notice. We strongly recommend that Guests frequently check the entry requirements for each country they plan to visit, especially as they approach their sail date.

Visit our Know Before You Go page to learn more about Disney Cruise Line's other health and safety protocols.

## Your Guide to Updated Experiences

Grid of 7 cards: Know Before You Go, Pre-Cruise Checklist, Before Leaving Home, Embarkation Day, On the Ship, Ports of Call, Debarkation Day. Each card contains a brief description of the topic.

For assistance with your Disney Cruise, please call (800) 951-3532. Monday through Friday, 8:00 AM to 10:00 PM Eastern time; Saturday and Sunday, 9:00 AM to 8:00 PM Eastern time. Guests under 18 years of age must have parent or guardian permission to call.

Table with 4 columns: Things to Do, Staterooms, Interactive Deck Plans, Plan & Manage. Lists various services and amenities.
